## Interchangeable Bezels & Reflectors

(to be ordered separately)

Prelux Bari offers a new level of flexibility with a single adjustable LED fitting providing a choice of eight possible finishes. The selection of bezels and reflectors available offer a very different option for each possible finish.\*

The Bari also rotates 30 degrees to provide further flexibility in terms of adjustable lighting orientation.

Installing the Prelux Bari is a breeze with the strong magnetic bezels simply attaching themselves to the fitting, saving you time and effort.

\*Bezels and reflectors are to be ordered separately
