Features & Applications

Prelux Sofia ceiling spotlights adopt diecast ADC12 which provides excellent heat dissipation. CRI80 and a highly efficient COB led chip provides high center luminosity. It is designed with high transmittance glass to enable maximum utilization of light output.

Lighting orientation is adjustable 350° degrees horizontally and 35° in vertically.

- Environment friendly, without Mercury or other hazardous substances
- Up to 70% energy saving compared to standard CFL
- Long lifetime of 40,000 hours
- 45° beam angle
- No UV/IR light
